Task 1. Read the text and choose the correct answer – True or False.

The London Underground and the Moscow metro

The London Underground is the oldest one in the world. In 1870 there was the opening of the first line. It was like a tube, that's why English people call the old lines the Tube. The new lines are called the Underground.

The London Underground is very long. It's about 300 kilometres long and it has about 300 stations. Some of them are closed on Sundays. Other stations are closed on Saturdays and Sundays. The price of the tickets depends on the distance. You pay more for longer distances. There are comfortable seats in the carriages at the Underground. The walls are white or grey. There are a lot of ads on them. The word "Underground" in London shows you where the stations are.

The Moscow metro began its work on the 15th of May, 1935. There were 13 stations at that time. Now it has more than 190 stations. A metro ticket costs 40 roubles. When you want to find the metro stations in Moscow you look for the letter "M". Our metro is one of the most beautiful, comfortable and cleanest metros in the world. We are proud of it.
